

**Self Priming Diaphragm Pump Spray Motor 12V for Water Dispenser WS****Model: 180742**

- Features:**
- Pump Size: 90 mm * 40 mm * 35 mm
 - Weight: 106g
 - Working voltage: DC12V
 - working current: 0.5-0.7A
 - Empty load current: 0.18A
 - Max suction: 2m
 - Outlet diameter: diameter 6 mm, an outer diameter of 9 mm
 - Traffic: 1.5-2L / Min (approx), the maximum suction: 2 meters
 - Lift : Vertical up to 3 meters
 - Life: up to 2500H, water temperature: up to 80degrees
 - when Voltage 6V : power is 6W / H, 6-12v..5w - 10w
 - installation steps as the picture

Applications:

- household appliances, drinking water equipment, tea sets, coffee machine, coke, fruit juice machine, milk machine, dishwashers, disinfection machine
- aquarium equipment, bonsai
- electronic equipment, medical apparatus and instruments
- spraying equipment, spray device, electric sprayer
- water treatment equipment, purification equipment, filter, cooling equipment, cleaning equipment
- ships, yachts, water desalination, vehicles, bath, toilet, health, environmental protection, etc
