## E\_S-1WR2 & F\_S-1WR2 Series 1W, FIXED INPUT, ISOLATED & UNREGULATED DUAL/SINGLE OUTPUT DC-DC CONVERTER

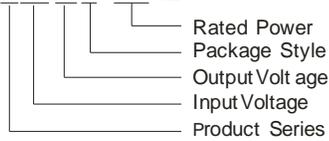

Patent Protection RoHS

Continuous Short  
Circuit Protection

### PART NUMBER SYSTEM

F0505S-1WR2

### PRODUCT FEATURES

- Miniature package
- Efficiency up to 81%
- SIP package
- High power density
- Low Temperature drift
- No External Component Required
- 3000VDC Isolation Voltage
- Operating Temperature Range: -40°C ~ +105°C
- Industry Standard Pinout
- Continuous Short Circuit Protection (Automatic Recovery)

### APPLICATIONS

The E\_S-1WR2 & F\_S-1WR2 Series are designed for application where isolated output is required from a distributed power system.

These products apply to where:

- 1) Input voltage variation  $\leq \pm 10\%$ ;
- 2) 3KVDC input and output isolation;
- 3) Regulated and low ripple noise is not required.

Such as: digital circuits, low frequency analog circuits, and IGBT power device driving circuits.

### SELECTION GUIDE

## EMC RECOMMENDED CIRCUIT

EMI Recommended External Circuit (CLASS B):

(Figure 1)

E\_S-1WR2 Series

Recommended external circuit parameters:

Vin: 5V/12V  
 C1: 4.7uF /50V  
 LDM: 6.8μH  
 Vin: 15V/24V  
 C1: 4.7uF /50V  
 LDM: 6.8μH  
 C2: 470pF/3KV

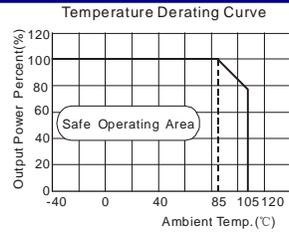

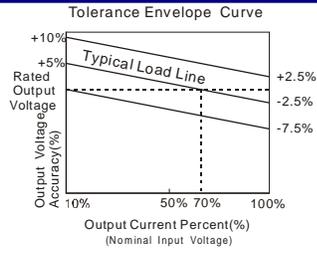

F\_S-1WR2 Series

Recommended external circuit parameters:

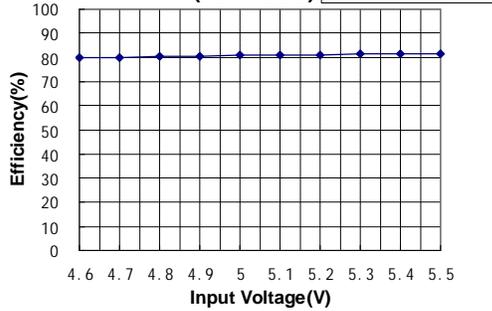

Vin: 5V/12V  
 C1: 4.7uF /50V  
 LDM: 6.8μH  
 Vin: 15V/24V  
 C1: 4.7uF /50V  
 LDM: 6.8μH  
 C2: 470pF/3KV

Note: If there is no recommended parameters, the model no require the external component.

**Efficiency VS Output Load curve (Vin=Vin-nominal)**

**Efficiency VS Input Voltage curve (Full Load)**

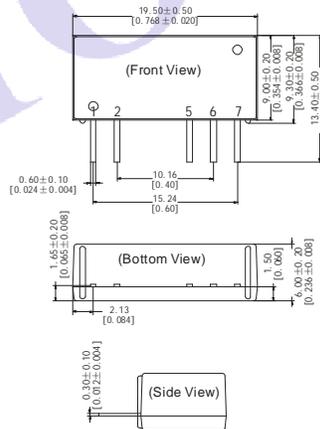

**Efficiency VS Output Load curve (Vin=Vin-nominal)**

# OUTLINE DIMENSIONS, RECOMMENDED FOOTPRINT & PACKAGING

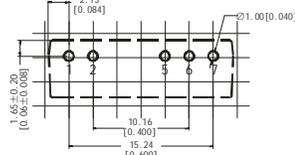

## MECHANICAL DIMENSIONS

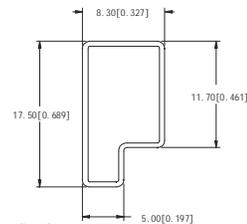

| FOOTPRINT DETAILS |          |          |  |
|-------------------|----------|----------|--|
| PIN               | E_S-1WR2 | F_S-1WR2 |  |
| 1                 | Vin      | Vin      |  |
| 2                 | GND      | GND      |  |
| 5                 | -Vo      | 0V       |  |
| 6                 | 0V       | No Pin   |  |
| 7                 | +Vo      | +Vo      |  |

Note:  
Unit: mm[inch]  
Pinsection tolerances:  $\pm 0.10\text{mm}[\pm 0.004\text{inch}]$   
General tolerances:  $\pm 0.25\text{mm}[\pm 0.010\text{inch}]$

## RECOMMENDED FOOTPRINT

## TUBE OUTLINE DIMENSIONS

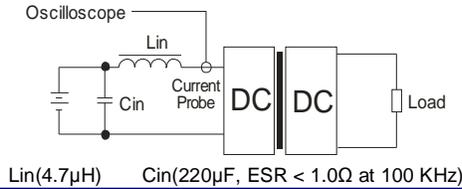

Note:  
Unit: mm[inch]  
General tolerances:  $\pm 0.50\text{mm}[\pm 0.020\text{inch}]$   
L=530mm[20.866inch] Devices per tube quantity: 25pcs  
L=220mm[8.661inch] Devices per tube quantity: 10pcs  
Short tube inner package dimensions: 255\*170\*80mm  
Short tube outer package dimensions (with six inner package box): 375\*280\*270mm  
Long tube inner package dimensions: 580\*200\*100mm  
Long tube outer package dimensions (with two inner package box): 600\*215\*220mm  
Long tube outer package dimensions (with three inner package box): 600\*215\*325mm

## TEST CONFIGURATIONS

### Input Reflected-Ripple Current Test Setup

Input reflected-ripple current is measured with an inductor  $L_{in}$  and Capacitor  $C_{in}$  to simulate source impedance.

## DESIGN CONSIDERATIONS

### 1) Requirement on output load

To ensure this module can operate efficiently and reliably, During operation, the minimum output load **could not be less than 10% of the full load**. If the actual output power is very small, please connect a resistor at the output end in parallel to increase the load, or use our company's products with a lower rated output power .

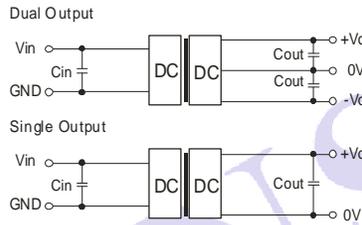

### 2) Overload Protection

Under normal operating conditions, the output circuit of these products has no protection against overload. The simplest method is to add a circuit breaker to the circuit.

### 3) Recommended circuit

If you want to further decrease the input/output ripple, a capacitor filtering network may be connected to the input and output ends of the DC/DC converter, see (Figure 2).

It should also be noted that the capacitance of filter capacitor must be proper. If the capacitance is too big, a startup problem might arise. For every channel of output, provided the safe and reliable operation is ensured, the recommended capacitance of its filter capacitor sees (Table 1).

(Figure 2)

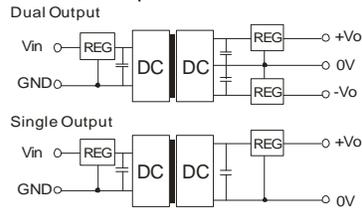

EXTERNAL CAPACITOR TABLE (Table 1)

| $V_{in}$<br>(VDC) | $C_{in}$<br>( $\mu F$ ) | Single $V_o$<br>(VDC) | $C_{out}$<br>( $\mu F$ ) | Dual $V_o$<br>(VDC) | $C_{out}$<br>( $\mu F$ ) |
|-------------------|-------------------------|-----------------------|--------------------------|---------------------|--------------------------|
| 5                 | 4.7                     | 5                     | 10                       | $\pm 5$             | 4.7                      |
| 12                | 2.2                     | 12                    | 2.2                      | $\pm 12$            | 1                        |
| 15                | 2.2                     | 15/24                 | 1                        | $\pm 15/\pm 24$     | 0.47                     |
| 24                | 1                       | --                    | --                       | --                  | --                       |

It's not recommended to connect any external capacitor in the application field with less than 0.5 watt output.

### 4) Output Voltage Regulation and Over-voltage Protection Circuit

The simplest device for output voltage regulation, over-voltage and over-current protection is a linear regulator and an capacitor filtering network with overheat protection that is connected to the input or output end in series (Figure 3), the recommended capacitance of its filter capacitor sees (Table 1), linear regulator based on the actual voltage and current required.

(Figure 3)

### 5) Cannot use in parallel and hot swap

Note:

1. Operation under minimum load will not damage the converter; However, they may not meet all specification listed.
2. Max. Capacitive Load tested at input voltage range and full load.
3. All specifications measured at  $T_a=25^\circ C$ , humidity<75%, nominal input voltage and rated output load unless otherwise specified.
4. In this datasheet, all the test methods of indications are based on our corporate standards.
5. All characteristics are for listed model only, non-standard models may perform differently, please contact our technical person for more detail.
6. Contact us for your specific requirement.
7. Specifications subject to change without prior notice.
