

# MIEC<sup>TM</sup>

## ■ FEATURES

1. Ultra compact, ultra thin and light weight construction.
2. Oscillation circuit is built in.
3. Long life due to non-mechanical contacts construction.
4. No electrical noise.
5. Low current consumption, and high sound pressure level.
6. Ones with water-proof foil cover are washable.

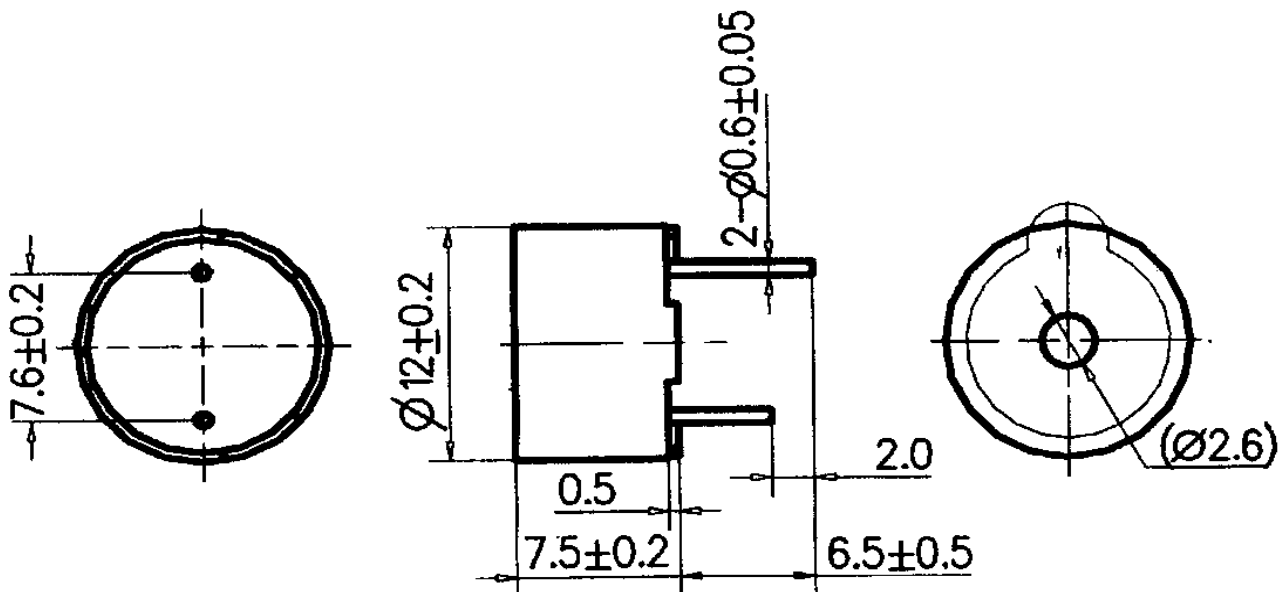

## ■ APPLICATION

Office automation equipment, electronic household equipment etc.

TYPE	HCM1203UX
Rated Voltage (V)	3
Operating Voltage (V)	2 ~ 5
* Rated Current (mA) MIN	30
* Sound Output at 10cm (dB) MAX	82
* Resonant Frequency (Hz)	2300 ± 400
Operating Temperature (°C)	-20 ~ +70
Storage temperature (°C)	-25 ~ +80
Weight (g)	2

\* Value applying rated voltage (DC)
