

## KEYESTUDIO Easy Plug Starter Kit for Arduino

### Model: KS0158 / EASY-PLUG

#### Description:

What about you and your kids being makers? What about getting creative and making your ideas come true? Well, let's get started right away! EASY plug learning kit is developed not only for professional electronic enthusiasts, but also for friends in other lines of work. Even if you have no electronics related knowledge, you can use it to realize your ideas as long as you want to. The tutorial of this kit has fully considered the learning interest of beginners. Starting from the basics to more complex lessons, well-arranged content and a connection diagram for every lesson to help you get started easily and quickly in learning Arduino.

#### Product List:

- |   |  |
|---|--|
| 1x Easy-Plug, Control Board V2.0 II                   | 1x Easy-Plug, Analog Rotation Sensor Module  |
| 1x Acrylic Board + Copper bush set                    | 1x Easy-Plug, Hall Magnetic Sensor Module    |
| 3x Easy-Plug Cable, Blue RJ11                         | 1x Easy-Plug, Collision Sensor Module        |
| 1x USB Cable  | 1x Easy-Plug, Digital Push Button Module     |
| 3x Easy-Plug, Digital White LED Module                | 1x Easy-Plug, Capacitive Touch Sensor Module |
| 1x Easy-plug Active Buzzer Module                     | 1x Easy-Plug, Knock Sensor Module            |
| 1x Easy-plug Passive Buzzer Module                    | 1x Easy-Plug, Digital Tilt Sensor Module     |
| 1x Easy-Plug, Analog Temperature Sensor Module        | 1x Easy-Plug, Flame Sensor Module            |
| 1x Easy-Plug, Analog Sound Sensor (Microphone) Module | 1x Easy-Plug, Vibration Sensor Module        |
| 1x Easy-Plug, Photocell Sensor Module                 | 1x Easy-Plug, Reed Switch Module             |
| 1x Easy-Plug, Water Sensor Module                     | 1x Easy-Plug, LM35 Temperature Sensor Module |
| 1x Easy-Plug, Soil humidity Sensor Module             |  |
