

Technical Parameters

Project name	Parameters
Operating Voltage	DC 5V~24V
Sensing distance	The distance is adjustable from 0.3cm to 180cm (the sensing distance and the obstacle color have a certain error, light color is far, dark color is close)
Sensing angle	30-40°cone angle
Induction method	Proactive approach
Quiescent Current	<3.5 mA
Load current	<3A (be exclusive of KD200M or KD200MC;<1A)
Working temperature	-20~85°C
storage temperature	-20~85°C
Line length	30cm (+10MM)(Bulk can be customized)
Material	PC-V0 fireproof material
Waterproof performance	IP67
Safety standard certification	CE
Environmental certification	ROHS-2.0
