

MAGNUM

ON FIRE

Introducing the new Magnum *hot-plate* - it's no ordinary 'hot sale'.

It's expressly designed to pre-heat circuit boards

View from the top.
Box Size 300 X175 X70mm

The heat goes on.
400W 220V AC

The pre-heating, amazingly efficient *hot-plate* from Magnum addresses all your preliminary heating solutions -- *just set it between 50°C and 170°C*, and get the required temperature, when and where you need it.

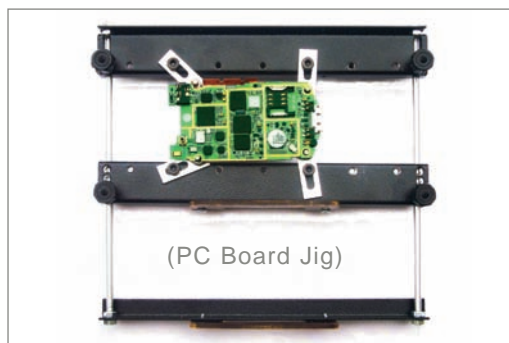

The Magnum Digital Pre-heating Plate is equipped with two infrared lamps -- enabling your team to perform faster and more expediently -- saving you time and money.

It's what it's all about. *Efficiency* where you need it.

The same Magnum Quality.
The same Magnum Dependability.
The same Magnum Performance.
The same Magnum Service.

What you've come to expect from all Magnum Soldering and Solution Products. Yesterday, today and tomorrow.
