

■ Features

- 1.8"x1" compact size
- Medical safety approved (2 x MOPP) accroding to ANSI/AAMI ES60601-1 and IEC/EN60601-1
- Suitable for BF application with appropriate system consideration
- No load power consumption<0.075W</li>
- Extremely low leakage current
- Wide operating temp. range -30 ~ +85°C
- EMI class B for class  ${\rm I\hspace{-.1em}I}$  configuration
- Protections:
   Short circuit / Overload / Over voltage / Over temperature
- · No minimum load required
- 3 years warranty

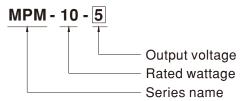

## Applications

- · Portable medical device
- · Mobile clinical workstation
- Medical computer monitor
- Medical examination instrument

### Description

MPM-10 is a 10W high density and small size (45.7\*25.4\*21.5mm) AC/DC module type medical grade power supply series offered in pin type. It features the operation for 80~264VAC, a low no load power consumption less than 0.075W, a high efficiency up to 84%, Class II (no FG) double insulation, outstanding dissipation and high lifespan thanks to the interior potting, 5G anti-vibration, high EMC performance, 4KVAC isolation, etc. The design observes IEC/EN60601-1 and ANSI/AAMI ES60601-1 version three with 2xMOPP level and ultra-low leakage current (<80  $\mu$  A). It is very suitable for BF (patient contact) type medical device or relevant equipment.
