

KK F540 Waterproof brushless motor

Features:

- ★ 4 Pole 12 Slot Hi-torque Motor Design
- ★ CNC Machined 6061 T6 Billet Aluminum Heatsink Can
- ★ High Purity Copper Windings Maximizes Efficiency
- ★ High RPM ABEC5 Oversized Bearings
- ★ Universal fit, 1/10 brushless cars-multi-mounting system with M3 screws
- ★ Precision balanced rotor, smoothness for best reliability and max RPM
- ★ Stator - Super Thin (0.35mm) Laminations
- ★ Removable/Replaceable Rotor
- ★ Precision Engineered for Maximum Energy Conversion

Specification:

Scale & type : Fits all 1/10 brushless cars

Origin : Guangdong china

Brand : Classic (support OEM & ODM)

G.W(G) : 181G

Sensored or sensorless : sensorless

Motor Specification:

Product	3650	820W	RPM/V	Max RPM
Max V	<12	66A	4370RPM	5000RPM
	<13	60A	3930RPM	5000RPM
	<17	47A	3300RPM	5000RPM
	<18	45A	3000RPM	5000RPM
