

HIGH QUALITY, FULLY COMPLIANT TEST LEADS & ACCESSORIES

Multimeters/ Clampmeters

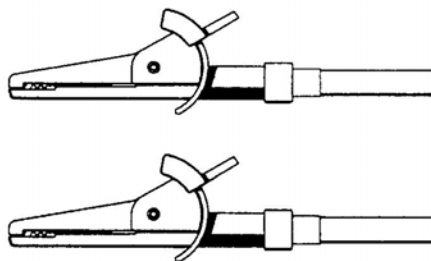

Silv 301. Fused Probe Kit.

This kit comprises of two probes fused at 500mA 1000V 50kA on 1.2M of double insulated silicone cable both terminated with a 4mm right angled plug compatible with all standard full safety instrument sockets.

Fully compliant with GS 38 and rated at 1000V Cat III pollution Degree 2 for IEC 1010. (BS EN 61010) LVD compliant.

Accessory for Silv 301, 309, 310

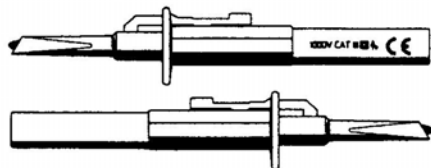

Silv 302. Screw in Crocodile Clips.

Pair of 1000V crocodile clips for use with Silv 301, Silv 309 and 310.

Rated 1000V Cat III Pollution Degree 2 for IEC 1010. (BS EN 61010) LVD compliant.

Accessory for Silv 304 & 305

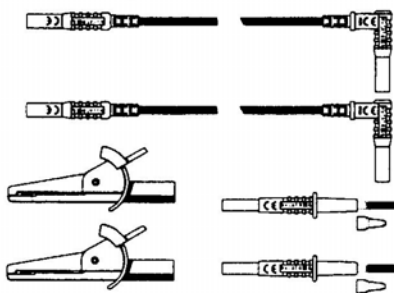

Silv 303. Pair Sprung Hooks.

Pair of Sprung Hooks for use on small conductors or Components, compatible with Silv 304. and Silv 305.

Rated 1000V Cat III Pollution Degree 2 for IEC 1010 (BS EN 61010) LVD compliant.

Multi/Clamp & Ins/Cont.

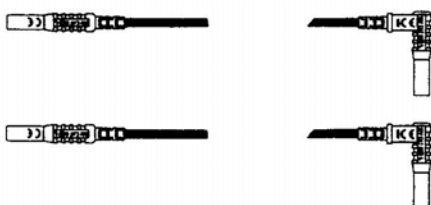

Silv 304. Unfused Modular Test Lead Set.

This universal test lead set comprising of 2 fully insulated 4mm plug cable assemblies made up of 1.2m of double insulated silicone cable, one end terminating in a straight 4mm plug the other in a right angled plug, which are compatible with all standard full safety instrument sockets. Also included are two small sharp probes and two large fully insulated crocodile clips. Silv 303 and Silv 309 are compatible with this kit.

Rated 1000V Cat III Pollution Degree 2 for IEC 1010 (BS EN 61010) LVD compliant.

Replacement for Silv 304

Silv 305. Pair Silicone Leads.

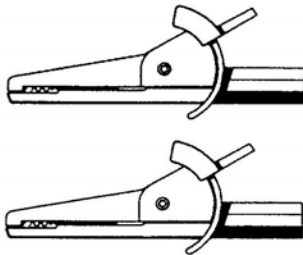

Replacement leads as supplied in Silv 304.

Rated 1000V Cat III Pollution Degree 2 for IEC1010 (BS EN 61010) LVD compliant.

HIGH QUALITY, FULLY COMPLIANT TEST LEADS & ACCESSORIES

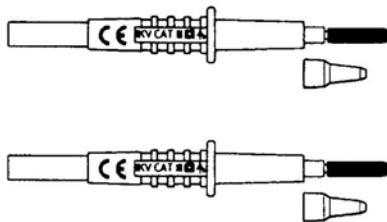

Replacement for Silv 304

Silv 306. Pair Large Crocodile Clips.

Replacement crocodile clips as supplied in Silv 304.
Rated 1000V Cat III Pollution Degree 2 for IEC 1010
(BS EN 61010) LVD compliant.

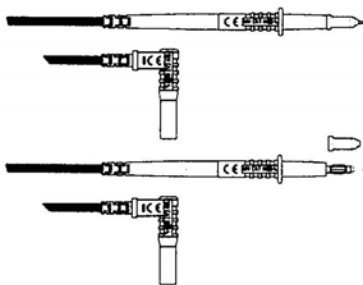

Replacement for Silv 304

Silv 307. Pair Small Probes.

Replacement probes as supplied in Silv 304.
Rated 1000V Cat III Pollution Degree 2 for IEC 1010
(BS EN 61010) LVD compliant.

Multi/Clamp & Ins/Cont.

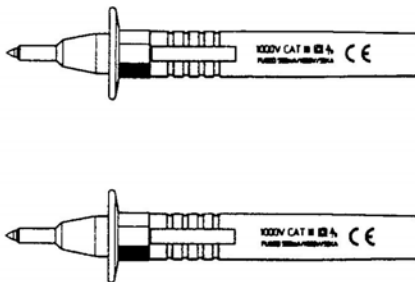

Silv 308. Lantern fronted Test Lead Set.

This kit comprises of 2 lead assemblies each utilizing double insulated silicone cable, one end terminating in a standard 4mm right angled plug compatible with all standard full safety instrument sockets, the other end is a fully insulated probe with a 4mm lantern tip.

A pair of insulating caps are also provided.
Rated 1000V Cat III Pollution Degree 2 for IEC 1010
(BS EN 61010) LVD compliant.

Accessory for Silv 304 & 305

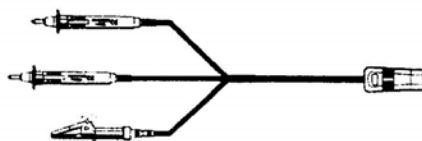

Silv 309. Pair Push on Fused Probes

A pair of Push on fused Probes each fitted with a 500ma- 1000V- 50kA fast acting ceramic fuse. Each probe has a removable front tip allowing for safe fuse replacement and the use of other screw in accessories such as Silv 302 (Crocodile Clips). The 4mm socket to the rear allows these probes to be used with other test leads, and is compatible with Silv 304 and Silv 305.

Rated 1000V Cat III Pollution Degree 2 for IEC 1010
(BS EN 61010) LVD compliant. GS 38 Compliant.

RCD & Loop testers

Silv 310. 3 Way IEC Lead.

Designed for use with RCD and Loop Testers. This assembly has a hot condition IEC plug with a 3 wire configuration in red, black and green, both the red and black are fused and the green lead terminates in a hard wired dedicated croc clip. Rated 300V Cat III, fitted with a 10A-50kA fast acting ceramic fuse. Complies with GS 38 and IEC 1010. (BS EN 61010) LVD compliant.
