## Wall Mounted 5 KVA AC Voltage Stabilizer

**Model: SRW-5KVA / 170364**

### Details:

Phase: Single Phase  
 Type: Wall mounted voltage regulator  
 Protection: For Under Voltage  
 Input Voltage: 140V - 260VAC  
 Output voltage: 230VAC +/-8%  
 Frequency: 50Hz/60Hz  
 Display: LED  
 Usage: SVC  
 Certificate: ISO9001:2008,PCT,SGS,CE  
 Size: 385x265x155mm  
 Weight: 22.75kg

### General:

1. SRW Series relay type full automatic AC voltage regulator adopts the international advanced technology and intelligent CPU centralized control technology.
2. It has the advantages of high efficiency, beautiful appearance and reliable performance and so on.
3. All products have over voltage, delay, temperature and error production and also voltage two-way indication. All indicator are digital display.
4. These high performance products are specialized for users of unstable voltage and precision electronic instruments and equipments.
5. Compared with other like products, ours have a higher ratio of performance to price.
