

RST - Tensioning Tool

- For nylon cable ties only
- This light weight tool is ideal for heavy duty production work
- The MK6TEN can be used for T50 and T120 Series cables ties
- Maximum width of Tie: 9mm
- Dimensions (mm): 180 (L) x 135 (H) x 25 (W)
- Weight: 0.5kg

Nylon Cable Tie
Tensioned/Cut/No sharp edges

TG007 - Plastic Frame Tensioning Tool

- For nylon cable ties only
- This light weight tool is ideal for heavy duty production work
- The TG007 can be used for T18, T30 and T50 Series cables ties
- Maximum width of Tie: 4.8mm
- Dimensions (mm): 165 (L) x 135 (H) x 25 (W)
- Weight: 0.21kg

Nylon Cable Tie
Tensioned/Cut/No sharp edges

TG008 - Steel Frame Tensioning Tool

- For nylon cable ties only
- This light weight tool is ideal for heavy duty production work
- The TG008 can be used for T18, T30 and T50 Series cables ties
- Maximum width of Tie: 4.8mm
- Dimensions (mm): 160 (L) x 135 (H) x 25 (W)
- Weight: 0.3kg

Nylon Cable Tie
Tensioned/Cut/No sharp edges

MK9SST - STAINLESS STEEL Tensioning Tool

- For stainless steel cable ties only
- Tensioning tool for heavy duty production work
- The MK9SST can be used for MBT8, MBT14, MBT20 and MBT27 Series cables ties
- Maximum width of Tie: 4.6 - 13mm
- Dimensions (mm): 190 (L) x 150 (H) x 40 (W)
- Weight: 0.48kg

Stainless Steel Cable Tie
Tensioned/Cut/No sharp edges
