

## TRUNKING SLOTTED

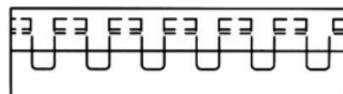

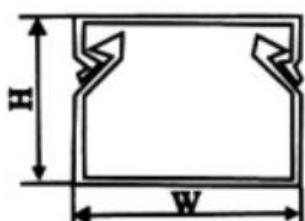

### DESCRIPTION / APPLICATION

This product is mainly used for electrical equipment internal wiring (like distribution cabinets, distribution box and some other electric equipment inside), and used in electrical equipment for laying in the wire up mechanical protection and electrical protection. It is convenient for wiring and easy to find and exchange lines.

### MAIN TECHNICAL DATA

|                            |  |
|----------------------------|--|
| <b>Material</b>            | Halogen-free material made of rigid PVC, environmental protection and Pollution-free, non-toxic lead.  |
| <b>Fire rating</b>         | V-0, highest flame retardant rating under the UL94 standard, which is after two 10-sec burn tests on the sample, the flame goes out in 30 seconds. No combustible matter fall. |
| <b>Structure</b>           | Make up of bottom and lid, with two out-holes designed at the bottom.  |
| <b>Color</b>               | Blue, Grey   |
| <b>Ambient temperature</b> | -40°C to 75°C  |

### DIMENSION & SIZE

| HXW(mm) | L(mm) | HXW(mm) | L(mm) |
|---------|-------|---------|-------|
| 20x15   | 200   | 50X100  | 200   |
| 20X20   | 200   | 60X25   | 200   |
