

Shenzhen Global Technology Co., Ltd

YYG-3 Dual Relay Output rating 250V/30A,

Model: YYG-3 / 180365

Product model: YYG-3 (12V1: Output : Less than AC 250V/30A, DC 30V/30A

- 1: The use of the industry's top quality miniature optocoupler, anti-interference ability, stable performance.
- 2: Adopt 9.5mm black barrier terminal, standard 30A terminal, stable and reliable, reliable quality.
- 3: Module Interface Description:
 - 1, DC+: external DC power supply positive pole
 - 2, DC-: external DC power supply negative pole
 - 3, IN1: signal input 1 (supports high and low level switching) Link L1 select High or Low.
 - 4, IN2: signal input 2 (supports high and low level switching) Link L2 select High or Low.
 - 5, NO: Relay Normally Open, the relay state before pulling in, and closes the connection with the COM.
 - 6, COM: Relay Common terminal
 - 7, NC: Relay Normally Closed, the relay state before pulling in, and open the connection with the COM.
