

5V to 12V 24V Voltage Display USB Boost Module 1-24V Adjustable 3W Desktop Power Supply

Model: ZK-DP / 190327

Feature:

Input voltage: DC5V
 Output voltage: 1-24V adjustable
 Power: 3W
 Display color: Red
 Size: L=70, W=26 & H= 14mm body.

Important Notes:

1 Please keep in mind that the maximum output at a given voltage is 3W otherwise the unit will get hot.

Calculate amount or current available by voltage.

$\frac{\text{Watts}}{\text{Volts}} = \text{Amps}$ there for

$\frac{3}{12} = 0.25 \text{ A}$ or 250mA
